EDUCATOR • CURRICULUM DESIGNER • MULTICULTURAL EDUCATION SPECIALIST

I am a professional educator with a Master's degree in Curriculum and Instruction specializing in Multicultural Education. I focus on building inclusive, globally minded, and culturally responsive classrooms. I strive to create environments where students feel supported, challenged, and encouraged to engage with perspectives different from their own. I believe education should help students think critically, communicate clearly, and engage with the diverse world around them. I aim to help students connect ideas, ask thoughtful questions, and develop a lifelong love of learning.

Curiosity has shaped every stage of my life and career. That's why I design learning experiences that encourage students to ask questions, think critically, and make meaningful connections. I believe that learning is more than acquiring information; it's about changing the way we understand the world.

My opportunities have allowed me to teach students from a wide range of backgrounds and abilities, reinforcing my belief that meaningful learning begins with understanding each student's unique experiences and perspectives.

As a non-native Spanish speaker, I have seen firsthand the insight and opportunities that come from learning another language. This has deepened my appreciation for cultural exchange and reinforced my belief that learning encourages curiosity and makes meaningful connections.

My interests continue to define my work. Whether through teaching, curriculum design, research, or international education, I love to help people make connections. Curiosity motivates me, and I hope to create learning experiences that inspire students to keep asking questions, explore the world with open minds, and discover meaningful connections of their own.

Specializations

Teaching

I create engaging, standards-aligned learning experiences that balance direct instruction, inquiry, project-based learning, and individualized support. Using formative assessment and data-driven instruction, I adapt my teaching to meet students where they are while challenging them to think critically and grow with confidence.

Curriculum Design

I design standards-aligned, cross-curricular curriculum that is engaging, purposeful, and grounded in research-based instructional practices. Through Understanding by Design (UbD), project-based learning, and authentic assessments, I create meaningful learning experiences that promote lasting understanding and real-world application.

Multicultural Education

I believe education has the power to preserve cultural identity while preparing students to thrive in an increasingly interconnected world. By intentionally weaving diverse perspectives throughout the curriculum, I create meaningful learning experiences that foster empathy, critical thinking, and a deeper understanding of both local and global communities.

- Research & Executive Functioning Skills (Upper Elementary)
- Media for Today: Digital Media & Communications (Middle Grades)
- ESOL / FAST ELA Support: Reading & Writing Intervention (Grades 9–10)

- College Admissions Reading and Writing Practice Skills–Based Assessment (Grade 11)
- Agricultural Science: Exploring Food, Environment & Sustainability (Middle Grades)
- AS/A Levels: AICE English Language: Advanced Writing & Analysis (Grades 10–12)

ESOL / FAST ELA Support: Reading & Writing Intervention (Grades 9–10)

This intervention is designed to support English Language Learners who need additional practice with reading comprehension and analytical writing. Lessons focus on building academic vocabulary, close reading skills, using grammar in context, and creating evidence-based writing while reinforcing the skills assessed on the Florida FAST ELA assessment.

Unit Overview:

Pacing: 10 Lessons

Target: 9th–10th Grade English–Language Arts Students

Learning Goals:

- Build academic vocabulary by using root word, prefix, and suffix knowledge and utilizing context clues skills.
- Strengthen reading comprehension skills using complex literary and informational (fiction and non-fiction) texts.
- Apply English grammar conventions.
- Improve sentence structure, grammar, and written organization.
- Cite relevant textual evidence to support written responses.
- Build confidence with FAST-style reading and writing tasks.
- Develop academic language by speaking, reading, and writing in a variety of classroom contexts.
